

## **INVESTOR RELATIONS PROGRAM**

LFM gives importance and value to its investors. In furtherance of this it recognizes that the stockholders are given time to participate regarding matters of concern and participate in the Annual and Special Stockholders meetings.

Furthermore, LFM believes that management should always be open and available to those who believe and invest in the company. Hence, the stockholders are given the contact information and business address of the corporation, so they have the liberty and means to have and schedule a one-on-one meeting or correspondence with the Chairman, Board Members, Individual Directors, or Board Committees
